

songbirds

SKYi

18°29'48"N 73°45'12"E

Songbirds is a symbol of life's joys. Well connected and comprehensively serviced by Pune's transport infrastructure, facilities and amenities, Songbirds by SKYi is a timeless reminder of the need to remain connected to nature and enjoy its benefits in their purest form.

*A nature-loving community
Bhugaon, Paud Road*

In true harmony with nature. *It's what my home at Songbirds will be.*

*An abode that will be designed to let me live life just the way it should be.
It's where all of Mother Nature's creations will live in complete harmony,
and so will I.*

Deepika Padukone Brand Ambassador, SKYi

Blue Verditer Flycatcher

Bhugaon is home to over 200 species of birds. Songbirds is home to 51 of them, including 30 that sing. The birds here are a mix of a number of local species, along with a few migratory birds.

Main Internal Road

Welcome to
Songbirds

70% *open spaces*

Songbirds is a development spread over approximately 42 acres of land in the scenic hills of Bhugaon. And development here takes an all new meaning with the phenomenal amount of open space that envelopes the stunning architectural beauty.

Songbirds is surrounded by Bhugaon Hills, the 4,000 acre NDA forest, the adjoining Four Seasons property and the Ram Nadi across its Northern border. But that's not all. Inside Songbirds, you'll find vast expanses of green landscapes, water bodies, gardens, wetlands, walkways, bird-trails and more.

Only about 30% of the campus is being used for construction.

Oneness with nature is about striking that fine balance between what development demands and what nature needs. It's one that we've managed at Songbirds.

Salil Ranadive, Chief Architect, Songbirds

Clock Tower at the Main Entrance

Location Map

Songbirds has been designed in accordance with the forces of nature such that the sun shall illuminate and the wind shall blow through every home. Majestic towers and a large cluster of villas spread over a sprawling campus of over 42 acres with more than 70% of that space reserved as open or landscaped space.

The Residences

There are 5 design dimensions that constitute the iHome Concept of Development

- world-class planning and design, care for the environment, eco-friendly design and development, state-of-the-art security and unmatched quality.

Every development by SKYi adheres to the exacting standards of this concept of development. From being designed to live life to the fullest to being planned around natural flora and fauna, the iHome concept strikes the perfect balance between luxurious development and a sustainable, eco-friendly lifestyle.

It's what your home at Songbirds will be. An iHome.

the
ihome concept
of development

Songbirds shall be the perfect translation of a brilliant philosophy into reality. The sun, the wind and the elements have been analysed to come up with a masterplan where every single home, every nook & every space is picture perfect.

A handwritten signature in black ink, appearing to read "Om".

Salil Ranadive
Chief Architect, Mumbai

a well-planned community

The masterplan for Songbirds has been carefully designed around the paths of the wind and the sun. In keeping with the principles of the iHome Concept, clear zones have been demarcated for recreational purposes and care has been taken to ensure that all walkways are vehicle-free.

Wheelchair friendly campus | Vehicle-free safe zones for children and senior citizens | 2 Acre Ecological Garden
Numerous spaces for social interactions | 4 lane wide central spine road

Artist's Impression, Image not to scale

At Songbirds, you'll find a landscape design that is serene, focused, classic and yet contemporary. The landscape concept embodies a design approach to create environments that merge the indoor and outdoor living environs.

Thanapong Boonyasiriwat
Chief Landscaping Consultant, Singapore

first *the environment*

In keeping with the iHome concept of environment, local flora that supports the biodiversity of the region has been preserved and extensively used as part of the landscaping at Songbirds.

Over 50 species of birds have already made Songbirds their home. And this flourishing bird life helps maintain the balance of the ecosystem in and around Bhugaon Hills.

Baya Weaver

Baya Weavers make their own homes. They live in flocks and set up nests around cultivation. They are friendly and comfortable in company of other species.

Oriental Magpie Robin

The Oriental Magpie Robin is a native to India, and is known to be a popular songbird. Its distinct dark-light plumage and upright tail make it easy to identify.

White Throated Kingfisher

This vibrant feathered bird is blessed with size, a powerful bill and rapid flight. It is generally found around water, and feeds on rodents, fish and more.

More than 200 hundred species of birds migrate to Bhugaon Hills in response to changes in food availability, habitat, or weather. Songbirds is blessed with this phenomenon due to the geographical advantages of Western Pune. Flocks of such migratory birds fly to Manas and Pashan Lake seasonally adding to the beauty of the environment.

From the trees that grow to the birds that sing, the natural habitat at Songbirds has been preserved with utmost care.

adequate daylight

Homes at Songbirds offer maximum sunlight to light up your home naturally and minimize the use of artificial light fittings.

A scientific analysis of the sun path at Songbirds has helped design the project in a way such that it is lit optimally by direct and indirect sunlight, from all sides.

Lux is the measure of the intensity of light within a place, as perceived by the human eye. Homes at Songbirds exceed the pre-requisite standards of illumination as prescribed by the National Building Code.

Daylight illumination at Songbirds

Levels of Illumination

smarter electrical fittings and greener too

less heat, better wind flow cooler homes

Scientific analysis has helped identify key factors that contribute to temperature levels within a home and adequate measures have been taken, from the right window size to double walls, to keep the temperature within your home pleasant all day long.

Favourable Pune Climate

Blessed with a pleasant climate for 8 months of the year. Great winters, amazing monsoons and mildly hot summers.

Heat Limiting Design

Bhugaon as a whole enjoys pleasant climate because of its greenery, elevated position, the sun-path and excellent cross-winds from the North-West & South-West. This blessed environment coupled with SKYi's commitment to green design will ensure enormous energy conservation and cleaner greener lifestyles for the residents at Songbirds.

More Air Changes / hour

Air Changes per Hour is a measure of the number of times the air within a defined space (a room or the house) is replaced by ventilation.

The Funnel Effect: Greater Cross Ventilation

Buildings at Songbirds have been built around the courtyard principle enabling continuous circulation of air and with an innovatively designed roof regulating the movement of hot air out of your home, your home stays cool always.

At Songbirds the wind path, air-circulation, sunlight exposure, heat levels and water usage have been thoroughly analysed. The design based on this analysis will ensure that every home will be comfortable, friends with nature, low on power consumption, and also towards your energy bills.

Sameer Divekar
Sustainability Consultant, Chicago

well-planned supply & recycling adequate clean water

Recharging Ground Water

While adequate measures have been taken to ensure 24x7 water supply, efficient usage and recycling of water plays a very important role at Songbirds. The right choice of opti-flow fittings minimizes water wastage and a state-of-the-art sewage treatment plant that recycles water for use in landscape watering helps conserve potable water.

Adequate Water Supply

Recycled Water Utility

Efficient Water Usage

multi-layered security your family is safe

Top-of-the-line surveillance equipment and a professional security team keep Songbirds secure. Homes are equipped with detectors for fire and gas leaks and a video door phone for effective security.

the best quality of material even better construction

Being a CRISIL 5 star rated realty developer and a member of the Indian Green Building Council (IGBC); our consistent successes in the past decade have displayed our commitment towards quality construction, passionate building, and most importantly, customer satisfaction. CRISIL Real Estate Star Ratings address critical factors in the realty sector: improved transparency, quality of legal documentation, construction related risks, financial viability of the project, and project sponsor track record.

CRISIL Real Estate Star Ratings provide city specific all-round assessment of real estate projects and help buyers benchmark and identify quality projects within their city.

welcome to the world of SKYi

A name that has redefined the very essence of fine living in Maharashtra with projects that turn into benchmarks, one after the other. SKYi's consistent successes over 10 years are testimony to their commitment towards quality construction, customer satisfaction, an aesthetic approach and innovative, passionate building.

SKYi's system & process-driven approach in handling projects involves urban development of commercial spaces and premium residential properties that range from condominiums, luxurious duplexes, townhouses and more.

Their thoughtful design and development is inspired on a simple belief of not just constructing a house that a consumer purchases, but creating a home that a family lives within. After over 1 million square feet of developed homes that house over 1,500 families, and over 5 million square feet proposed area under development, the team drives itself in the only direction they have ever known. Skywards.

5 _Baner

5 at Baner is a residential tower of 9 exclusive ultra-luxurious, fully-automated 4 BHK apartments. Each apartment with an area of 3300 sq.ft. is centrally air-conditioned, comes with a spa pool, best-in-class kitchen appliances, a Bose 5.1 Surround System and much more.
